TWO MORE TOWNS VISITED AND LOOTED.

INHABITANTS WERE ALL PARA-LYZED WITH FEAR.

Even the Postoffice is Robbed of Money and Stamps—How a Passenger Train Einded the Bandits—Merchants and Bankers Are Great-ly Worked Up Over the Agent Wisdom today wired the Indian office asking authority to incur the necessary traveling expenses of the Indian police in assisting United States marghals in hunting down the thieves and making arrests. Such authority was Secret. ees, and Have Asked For Troops But it is Just Possible Their Request Must Be Denied.

Little Rock, Ark., Oct. 22.—Last night's the programme in the great carnival of crime which is now holding the boards in the national control of the control Indian Territory, consisted of the whole-sale robbery of several small towns in genuine desperado style by Mr. Bill Cook, supported by a strong and desperate impany of eight or ten followers. Four men rode into the town of Watova

early in the evening, making their approach made known by a promiscuous discharge of firearms. The bandits terrorized the inhabitants and most of them sought safety in their houses behind bur-

they could find, and whatever else they wanted. The Watova postoffice was rebbed of about \$60 in cash and about \$65 in stamps.

From Watova the gang ran on into Tala, ten miles away, where they repeated their depredations. They rode into the town and processed at once to rob stores right and left. Every store in the place was visited and the proprietors compelled to turn over their cash. The postoffice was also robbed of stamps and a small amount of money. The bandits entered the town boidly and made no effort to conceal their identity. None were masked. From reports of their description they were undoubtedly the same gang that held up the Missouri Pacific at Caretta Siding Saturday night. It is believed that it was the bandits' intention to rob the Missouri Pacific train No. 21 at Tala. While they were holding up the postoffice the train pulled into the station. The trainmen were notified of the presence of the gang and the train was started at once. The bandits galloped out of town discharging their Winchesters.

WORSE THAN IT EVER WAS.

Expressmen Describe the Situation in the Teritory.

St. Louis, Mo., Oct. 23 .- Bankers and usiness men living in the towns in

protection for life or property, except as we furnish it ourselves. This con-tinual carrying of such an armed force makes the business too expensive to be profitable. We have lost more by the expense than we ever did by the actual robberles. Now, this Saturday robbery. By it we lost just \$417. This consisted of return C. O. D., which we are still handling, and our own and the rallroad's remittances. But you can see that to protect even a small amount what it would cost when such a gang as that attacked the train. The other companies are still carrying money, but I am informed by Mr. Simpson, of the Wells, Fargo, that he has asked the general superintendent to issue an order similar to ours.

A Faint Idea.

**To give you a little idea of what we have paid out, I will speak of the Coliphant robbers. Our loss there was about \$390, but it cost us \$8,500 to capture the robbers. At the present rates for carrying money we would have to take into the territory \$8,500,000 to get that back. For some time before the Dalton gang was wiped out, the Missouri, Kansas & Texas and the Pacific on the eight men comprised in the gang. This had only shortly before been withdrawn, where, unless there is a reward or we pay the expenses of the deputies, United States marshals.

The secenes today at the city hall were intendent O'Maria and other police officers as to their mode of procedure in ordinated that the people should support the government. (Applause.)

"But into power they went, and instantly marked to secure the money they had placed in the descretionary pools.

Five additional informantions were made against William. Charles and Henry Deliney, all charging the parties sued with that."

"God help the surplus, we will soon manage that."

This had only shortly before been withdrawn, where, unless there is a reward or we pay the expenses of the deputies. United States marshals do not seem to think it is their duty to capture the robbers.

"There is but one way to stop this lawlessness, that is to make a state out of Indian territory. Of course, if

out of Indias territory. Of course, if the federal government would send a few regiments of soldlers down there instead of keeping them in the barracks in these eastern military sta-tions, it might do some good. A war of extermination such as Governor Crit-tenden waged against the James gang in Missouri is what is needed. This can only be properly done by admit-

ting the territory to statehood.
"This order of ours does not greatly affect St. Louis, as most of the money is shipped to those banks in the terri-

is snipped to those panks in the terri-tory from Little Rock or nearer points.

"Quite a good deal of money in pay-ment of goods comes out of the terri-tory by express, but this system can be temporarily changed."

General Superintendent L. A. Fuller. of the Pacific company, and General Superintendent Peck. I the Iron Moun-tain, have gone to Waggoner, and will

spend several days in the territory in the attempt to have the Cook ging, which perpetrated the last robbery, captured. A Young Devil.

The information received here is that "Bill" Cook is young man, not yet 23 years old, and Cherokee Bill, his chief years old, and Cherokee Bill, his chief lieutenant, is but it. Superinter, dent Case says they are desperadoes simply for the notariety and not for the money they can get. Still they always take all they can get. The gang which effected the robbery at Claremort a short time ago was the Means gang, headed by Columbus Means. This is a had gang, as is also Bill Doolan's gang, which is said to have sprang from the ashes of the Dalton gang. Superintendent Simpson, of the Wells, Fargo company, is now in the territory, also looking into the company operates. It is stated by some who are familiar with the situation there that the company, is now in the territory, also looking into the condition of the country in which the company operates. It is stated by some who are familiar eral notes. The total amount alleged to be forged is about \$50,000.

It Is Now Holding the Boards in | trouble is largely due to the character trouble is largely due to the character of the deputy United States marshals. It is a well known fact that they are largely recruited from the desperado class and it is often charged that they stand in with the train robbers.

The Secretary's Views.

Secretary Smith, in his letter to the war department, says that in view of the obligations of the government as set forth in the treaty with the Indians in Indian territory to protect the five civilized tribes against domestic strife and hostile invasion, and to guarantee those people peaceable enjoyment of the country, he recommends that the troops be sent as requested. It is expected the troops would be used to hunt down and drive out the marauders who are harrassing the people.

making arrests. Such authority was granted.

These communications reached Acting Secretary Doe at the war department this afternoon and after reading them carefully he referred them to General Schofield, commanding the army.

General Schofield looked into the matter and then returned the papers to the acting secretary with a suggestion that the resulest for troops be matured and considered with a view to ascertaining the legality of the proposed action. This indorsement from so high an authority on the complex relations between the military and civil branches of the government will undoubtedly cause the war department to move with great caution in acting on this request for troops and in the end may result in a refusal.

The Indian Territory differs from other territories from an administrative point of view in the fact that the national government is bound by treaties with the indians to procet them from domestic violence.

But in the absence of express stipula-

"Into their hands-the longest and Detroit, Mich., Oct. 23.—A special to the Tribune from Gladstone, Michigan, of this nation. Every man with an unscrupular says: of this nation. Every man who had a loud cry; every man with an unscrupulous grasp; every man with an unscrupulous grasp; every man who was promised a reward for the money he had gurnished to corrupt the votes of poor men—to each of these has been handed his share of the plunder. And what was the outcome? Let us describe it in one word—profligate expenditures had changed the surplus into a deficit. That emptied the trasuery, and put it in debt, and then a bill of enormous taxation made in the name of protection to American industry—the McKinley tariff law, and then a bill urged on by the same principles by those who owned the mines of silver and were interested in their development—the bill which bears the name of Mr. Sherman—the Sherman silver purchase bill. My friends, those measures had been passed before the election of 1892.

"Public policies do not always declare their results quickly. It is like the habits of a man. Health has no symptoms. You merely see that the step is light, that his eye is clear, that his color is fresh, and you say the man has health. On the other hand, if the habit is one fatal to health, you do not perceive at once, but gradually and gradually the evil habit proclaims litself. It tells upon him; but not until his constitution may be undermined do you perceive the haggard face, the feeble step, the glassy eye and all the symptoms of ill-health upon that man. They do not declare themselves they will.

Zimmerman's Plans. Florence, Italy, Oct. 23.-Zimmerman,

the American cyclist, has signified his intention of devoting another season to racing in Europe, and that he will leave New York early in the spring of 1895, and proceed direct to Florence. The cycling enthusiasts are some what fubilant over the prospect of the American champion making Florence his headquarters, the same as Paris constitutes the European "home" of the Zimmerman retinue this season, and they have begun already to make dates. The racing circuit in Italy comprises besides Florence Roma Turing dates. The racing circuit in Italy com-prises besides Florence, Rome, Turin, Mitan, Genoa and some smaller cities. Zimmerman has written to confirm the statements concerning his plans for next year, but it is known that he has not been averse to another year on the track, provided he could get back to racing shape.

A heavy ound was heard in all parts of the city immediately preceding the quake. Considerable consternation was caused in the public schools, the children in some of the rooms being hastily dis-

missed. Clocks were stopped, windows and doors were shaken sensibly.

The second shock was observed by but few people, being very light and coming when all were talking of the first, but the third was so pronounced as to bring the people into the streets without delay.

Telephone messages from Coronado, Upper Otaydam, Campo, National City and other places showed that the quake was felt about equally at all surrounding points.

Loose rocks were shaken from the hillsides and rattled down the canyons and a heavy groan or booming noise accompanied the tremors. The weather observer reported another slight shock at 4:25 o'clock, not so strong as the first ones, but quite perceptible. It was not felt on the ground. Carthage, Mo., Oct. 23.—The special in a manner carrying conviction to the Carthage, Mo., Oct. 23.—The special train bearing Vice-President Stevenson, ex-Governor Francis and other distinguished Democratis, arrived from the south at 10 o'clock. Mayor Jacobs, Republican, officially received the vice-president. After a drive around the city he addressed an audience in a seven-minute talk, devoted to the record of the Democratic party.

Tenty Thousand Heard Him.

Nevada, Mo., Oct. 23.—Vice-President Stevenson arrived here at 12:20 and was escorted to the public square, where he spoke an hour. Fully 29,000 people were in attendance. IRON AND BRASS WORKERS.

They Will Form Central Bodies in Each of the Large Clifes. Each of the Large Cities.
Indianapolis, Oct. 22.—The American from and brass workers today decided to form, in each of the large cities of the United States, central bodies to which all trades in the metal industry will be asked to become a part. The lifea is to form a closer relationship and the central body will be a sort of protector for all branches. All troubles will be adjusted by the central body. A national organization to be known as the Federated Metal Trades of America was formed and the following officers were elected: President Les-Johnson, Kansas City; vice-president, James O'Connell, Richmond, Va.; secretary and treasurer, William Anderson, St. Louis.

ALMOST INCREDIBLE.

Congressman Heard introduced the vice-president, who was received by a storm of appiause, most of the people rising from their seats.

His principal topic of discussion was the tariff, which he discussed for an hour. The Democratic Congress had reduced taxation enormously and was criticised because in one single year it had not undone what the Republican party had done in thirty-three.

At the close of the vice-president's address ex-Governor David R. Francis made a speech also, saying that the tariff reform was the great issue of the day. He commended the income tax feature of the Wilson act.

Senator Cockrell next made a vigorous speech, which brought out the greatest demonstration of the evening. He said that the Wilson bill contained more tariff reform than the celebrated Mills bill, which was satisfactory to the Democratic services where He went over the cardinal principles of the Democratic party in a most eloquent manner, and was cheered at the close of nearly every sentence.
